Subject: Too Many Chefs ... Play Action

Recently, a narrowcast cable commercial aired last evening on Monday Night Football featuring a young man picking up his early morning newspaper while a neighbor was also retrieving his. (I am usually up very early in my neighborhood, retrieving the newspaper before 6 AM in most cases.)

The commercial has a deja vu theme to it as the event is presented twice during the 30 second spot. This commercial first aired after Sunday January 6, 2002. The young man first says, "Hmm, ... Sunday ... going to be a good day", as he looks at the cover of the large Sunday edition. The neighbor yells out, "Too many chefs!" The scene is repeated with the comments, "Play Action!", for the neighbor's line.

The message is an explanation / reinforcement of the multiple "chefs", "so called leaders", and others who are directing the multinational million dollar publicity campaign. Of course, as the sage adage goes, "too many cooks spoil the broth".

The original recipe for Quaker Instant Stadium Organist called for this action (similar to the cloning techniques seen in the film "The Boys From Brazil":

Scenario ...

Secret Government Plan - Dateline 1955 ... height of the atomic cold war with the Soviet Union ... Eisenhower / Nixon administration ... Duck & Cover mentality ... Fallout Shelters in shopping malls & churches ... Walt Disney opens DisneyLand - Anaheim ... can social engineering create replacements for our film and music stars?

CAST

Mother: Tennessee Virgin who stops running

Father: Navy veteran who's hard work and blue collar Chicago connections help him climb social and economic ladders

Mother's unmarried spinster Aunt: Confined to her musical world spinning tunes from her Hammond Organ Novachord. Lives with mother and father in 1950s with extended family. Aunt is about 10 years older than mother, and a favorite friend.

def. Tennessee Virgin ... sister who can outrun her brother

Take first born male child and move child through many homes, neighborhoods, & school districts including private schools. Use television social programming through broadcast advertising to entice parents to "move up" during the 1960s to larger homes in suburban Chicago. Keep father traveling majority of time in order to continue music preparations for family.

Force oldest child to learn keyboard music via electronic organs & recorded music. Deny college eligible youth to attend college of his choice and educational level. Acquiesce local to community college education. Channel youth to entertain A.C. Nielsen executives in Northbrook, Illinois restaurant, designed to launch replacement for Chicago Blackhawks Hockey Team Stadium Pipe Organist upon retirement. Use private Germanic musical teacher to provide initial instruction and "reference" for A.C. Nielsen / Grove Inn first professional musical performance.

Original Stadium musician performed from about 1930 - 1972 before first protege became a permanent replacement from 1972 -1982. Finally promote best of all of the performing organist youth from the Chicago area to Blackhawk Stadium Organist, firing first protege in 1982. There were probably 10 restaurants or night clubs developing talent for the Chicago Stadium, like minor league ball clubs & college sports programs.

Now ... I have already documented this in various ways ... and it's really a weird recipe, but it's true!

The chefs in Washington D.C., Texas, California, Chicago, & Redmond, WA have been stalling & salting this recipe without providing me any interesting work, or rights to invest my money in areas of my interest ... aviation, space technology, and personal fitness. This "recipe" has provided no performing musician interested in performing, and has only stalled justice.

The "creative" Marino neighborhood was designed by one of the Aliso Viejo or Redmond chefs who wanted Buy.com to grow, forcing me into a hostile area. After choosing financial services with a competitor to the Bank of America and fighting an B of A executive decision to intentionally ruin my credit, I fought back.

Later, the local chefs tried to spin a musical performance with the Crystal Cathedral and the Mighty Ducks Hockey Team ...failing on both attempts, but causing me additional attacks, and assaults by those involved with the nefarious schemes. My recent PR campaign at NBC-Burbank once again brought international chefs who screwed with the recipe ... fortunately I was in the studio audience when Jay Leno, Wolfgang Puck, & Tim Allen tried to make pizza together!

In between all of the years of performances & musical instruction I have received an education in marketing, finance, aviation & space technology, electronic and digital circuit design, healthcare, legal, and fitness through my own personal interests. Millions of people have benefitted from my innovations, and thousands have personally purchased their computers, and information technology from me!

The TD Waterhouse print and broadcast advertising commercials feature a retired executive relinquishing the "decisions" to their clients via the TD Waterhouse website with a comment, "It's your investment choice".

To this very day, in 2002, other family members are "controlling" my earned assets to channel me once again to a musical performance, denying me my rights and earned income through royalties and investments illegally stolen from me. They have schemed with the Crystal Cathedral, Arrowhead Pond, Disney, and the Tonight Show ... holding me back from a career I have enjoyed and contributed to from 1977 to 2002 in personal electronics, business and network computing systems, and advanced telecommunications.

The assets are in the billions and some of the "bigshots" controlling them have ties to the US Government with bonds, notes, and business transactions. They just don't want to give up this control ... but, people are replaced everyday ... for instance ...

The ABC television network replaces their veteran executive, Stu Bloomberg with Susan Lyne and AOL Time Warner adjusts the "goodwill" of the 2001 approved merger by \$60,000,000,000. That's sixty billion dollars, folks ... that's a sum that could probably purchase all of Irvine, California and parts of Newport Beach!

Thanks for listening! Please help me obtain control of my assets in order for all of us to improve our Nation and other area of the world.
